1. CHRISTIANITY IN THE 20th CENTURY

The Cambridge History of Christianity (New York / Cambridge: Cambridge University Press, 2005-). This new comprehensive *Cambridge History* will be recognized in coming decades as *the* standard survey of Church history. Each of its massive volumes offer thorough introductions both to key events and to broad themes and includes contributions from leading contemporary historians. For researching recent developments, this is the place to begin. The two volumes which focus on the modern world are:

2. THEOLOGY IN THE 20th / 21st CENTURY: SURVEYS & HANDBOOKS

In recent years, there has been a huge upsurge in multi-author handbooks and surveys, published by leading publishers such as Oxford, Cambridge, and Blackwell. Different handbooks take up one or another theological discipline or topic. Generally, they are very high quality and are great places to survey the terrain. I've listed a wide range of these below:

- James C. Livingston, *Modern Christian Thought*, 2 vol., 2nd ed. (Minneapolis: Fortress Press, 2006). A superb survey of 19th and 20th Christian theology. In his review, David Schultenover, editor of *Theological Studies*, aptly described it as "at once thorough, succinct, eminently readable, and rooted in primary sources."

- Vol. 1: *The Enlightenment & Nineteenth Century* (2006).
- Vol. 2: *The Twentieth Century* (2006). With Francis Schussler Fiorenza, Sarah Coakley, and James H. Evans, Jr.

David F. Ford & Rachel Muers, eds., *The Modern Theologians: An Introduction to Christian Theology since 1918*, 3rd ed. (Oxford: Blackwell, 2005). There are surprisingly few introductory surveys to contemporary theology. This volume fills an important gap. The first half has chapters on leading figures, both Protestant (Barth, Bonhoeffer, Bultmann, Tillich) and Catholic (Congar, Rahner, von Balthasar, Schillebeeckx, and Kung). The second half surveys regional theologies (North America, Latin America), themes (feminist, ecumenical, postmodern), and method (influences of natural sciences, the arts, social sciences)

3. VATICAN II: EVENT & THEOLOGY

Texts & Translations

Vatican II (1962-1965) has been called the most significant religious event of the 20th century. For the Latin texts of the Council's documents, with a facing English translation, see Norman P. Tanner, ed., *Decrees of the Ecumenical Councils*, 2 vol. (Washington, DC: Georgetown University Press, 1990). The standard Austin Flannery, ed., *Vatican Council II*, Vol. 1: *The Conciliar and Post Conciliar Documents*, new revised edition (Northport, NY: Costello Publishing Company, 1996).

Studies

John W. O'Malley, *What Happened at Vatican II* (Cambridge, MA: Belknap Press / Harvard University Press, 2008). At last, we have a comprehensive, balanced, and nuanced one-volume survey of Vatican II: the events, the debates, the behind-the-scenes politics, the theological issues. O'Malley is a master historian, best known for his work on the Italian Renaissance and the early Jesuits. He takes huge amounts of raw historical data and distills it down to its core without shortchanging nuance or the vibrant issues at stake. This work will become the new standard for understanding the council and its enormous achievements.

Giuseppe Alberigo & Joseph Komonchak, ed., *History of Vatican II* (Maryknoll, NY: Orbis Books / Leuven: Peeters, 1995-2006) 5 vol. This massive project is the most thorough study of the events and debates of Vatican II to date. The authors draw on the texts of the debates, diaries of the participants, and news reports to trace out the

slow evolution of each of the documents. A vital tool for all scholarly study of the Council:

- Vol. I: *Announcement and Preparation of Vatican II* (1995)
- Vol. II: *The Formation of the Council's Identity: First Period & Intersession, October 1962-September 1963* (1998)
- Vol. III: *A Mature Council: The Second Period & Intersession, October 1963-September 1964* (2000)
- Vol. IV: *Church as Communion: Third Period & Intersession, October 1964-September 1965* (2004).
- Vol. V: *The Fourth Period and the End of the Council, September 1965-December 1965* (2006).

Xavier Rynne, *Vatican Council II* (reprint: Maryknoll, NY: Orbis Books, 1999). Francis X. Murphy was a patristics scholar working as a *peritus* at Vatican II. Writing under the pseudonym of “Xavier Rynne,” he sent weekly dispatches to *New Yorker* magazine, published as “Letters from Vatican City.” In the process, he unveiled to the wider public what was happening behind closed doors: the backroom politics, the pitched debates, and the wide-ranging theological issues. This enormously popular account of the day-to-day happenings at the Council still reads well after 40 years—now back in print, with a new edition and preface.

Rediscovering Vatican II (New York: Paulist Press, 2005-2009). This series offers a popular and very brief introduction to individual documents of Vatican II, highlighting how they have been implemented over the last 40 years. Volumes to date are:

- Stephen B. Bevans and Jeffrey Gros, *Evangelization and Religious Freedom: Ad Gentes, Dignitatis Humanae*, Rediscovering Vatican II series (New York: Paulist Press, 2009).
- Edward Cardinal Cassidy, *Ecumenism and Interreligious Dialogue: Unitatis Redintegratio, Nostra Aetate*, Rediscovering Vatican II (New York: Paulist Press, 2005).

4. POPE JOHN XXIII & THE PAPACY BEFORE VATICAN II

- Eamon Duffy, *Saints & Sinners: A History of the Popes*, 3rd ed. (New Haven: Yale University Press, 2006). A great one-volume history of the papacy originally designed to accompany a 6-part television series. Duffy, a Reformation historian by training, threads his way with finesse through a complex, many-sided history. He offers a fine brief overview of the papacy of the 20th century. A superb point-of-entry and overview.
