Dear Brick

The Police called in last

Thursday to help them out in the case described

here. I succeeded persuading the quy to let me in

The room a later persuaded him to some out of the

locked room into the parlor but never once did he

relax his hold on the knife of the girl. I wish you had

been with me.

tail but otherwise undisturbed. I remember dear old Bob's cat well; how he would have her jump up on his shoulder & perform other antics. He was like my Dad in his love for acts. Both of them always had one around. There will never be another guy like Bob. He & I always hit it off perfectly together & I used to enjoy his company & studying him on my visits home. He could make funnier faces than Danny Kaye & was always good company. Here's hoping you & Lon & all the others in the family enjoy the holidays & then keep on enjoying what life is left to us. You are all in my Masses & prayers & always will be
ever yours
