National conference of christians - Jew's kill open housing

I.C.

Rejections open housing by the chief executives of the city-being our city Gov - the body know as City Council. on rejection of opening housing is law their

lessness, in every sense of the word because, it violatos the constitution which is the law of this laid, how is it, it lawlessness, its lawnessness, because it relates the evil and religious rights of people who parents and foreparents fought and died for - furthemore it is serious. because the voted choice of the people to represent the people.

Willfully refuse to obey

he constitution constitution. The

law of this land, relates the

Christian principle, as well as the civil law. (hope I haven't sepeated myself) thy

our city government - are or were conservating

enough to see the need of open

housing but not liberal enough to

recommed it, furthermae what is

doen housing any anyway - and

to me it means and is the

insurance of the constitutional Law

and I feel that until their is
open housing their will
be termoil. Furthermore I
think our city council is listening
to a few- black & white who
are less than conservatives and
people who are swallowed up
in their own selfishness.

I am sure I have made my self clear)

but most of all the city Council
is not levery up to its own
sworn duties, responsiblity
and moral obligation. I feel
they would be no need for a
human relation & board if the
council did live up to it obligation,
and there is no need a human
relations board unless they its to
see to that the City Council
abeded by the constitutional law
of this land and again I say
that as Geo Cerners is well and
[illegible] I have been
