J. High - conference
denial of privileges
extra hrs

all based on good relationship with parents

Procedures

When students continue to disrupt and teacher has exhausted all means of reaching the child, the principal is asked to suggest other methods.

The following procedure is used:

1. Parents notified by letter or Community aide. Child is taken home.
Conference requested. When parent ~~comes~~^{the} spanking permission blank discussed.

2. If ^{the} signed ~~the~~ form is filed - teacher notified. (is often never needed again)

If not signed - parent informed that the child will be brought home for all serious infractions of the school regulations - Teacher informed of this.

When violations occur, teacher sends anecdotal report of behavior to principal, principal notifies parent, ~~and~~ child home to return when the child feels he is willing to conform. Parent must accompany child back. The parent helps in the decision. After several such occasions the parents ^{usually} change and give the school permission to discipline when necessary.

The spanking permission form is stated that only after all other methods have been used, and as a last resort. It mentions the type of punishment.
