

# THE CREIGHTON COURIER

DEVOTED TO THE INTERESTS OF THE CREIGHTON UNIVERSITY

Vol. VII

OMAHA, NEBRASKA, JULY 15, 1918

No. 4

## LARGE ENROLLMENT

The Sixth Summer Session of the University, which is now in progress with a registration of 234 students, marks the high water point in the enrollment of this branch of the University's work. Last year there were 227 students and the year before 225. The present showing is gratifying under the present adverse conditions and gives hope that when conditions are normal the attendance for summer work will gradually mount to a high point. Most of the students this summer are working toward degrees, and thirty-two are working for advanced degrees. The dominant note of the session is thoroughness and emphasis is put upon covering a small field carefully rather than upon a large field. No credit is given for mere attendance, examinations being necessary in each course.

Thus far the weather has been delightful, and both faculty and students have entered into the work of the session with fine spirit.

The Monday and Friday entertainment programs are proving very popular.

## DENTAL NOTES

Dr. Godfrey Bindewald, D. D. S. 1918, has been assigned for duty by Surgeon General Gorgas to the College of Dentistry, where he will act as demonstrator the coming year. Dr. Bindewald was married on June 29th to Miss Randall of Omaha.

Dr. Carl Edson Burns, D. D. S. 1918, by order of the Surgeon General, U. S. A., has been appointed instructor in the College of Dentistry.

Dr. Mark J. Noy, D. D. S. 1918, of Minnesota, passed through Omaha on his way to Fort Oglethorpe, Georgia, where he will take special training in the Government Dental service.

Dr. Robert Orin Schaefer, D. D. S. 1918, of Kansas, while awaiting a call to the colors, has replaced his brother, Dr. Fred William Schaefer, D. D. S. 1916, in the office of Dr. Despecher. Dr. Fred Schaefer is now in the Army.

Dr. Emil Soukup, D. D. S. 1918, is practicing with Dr. Robert Henry Schemel, D. D. S. 1917, in South Omaha.

Dr. Wm. P. Higgins, D. D. S. 1913, a Lieutenant in the Dental Reserve Corps, has been ordered to report at San Antonio, Texas, for active duty.

Dr. Herbert E. King, D. D. S., who has been teaching at the College of Dentistry for the past five years, will be Superintendent of the Infirmary.

The Senior Class of 1918-19 of the College of Dentistry will be the largest in the history of the college. In order to give the students ample instruction in gold foil work, Dr. Charles Woodbury is planning to spend two afternoons each week in the infirmary.

Dr. Mark L. King, D. D. S., will have charge of the Freshman technic laboratory.

The three students of the Class of 1918 in the College of Dentistry who became members of the non-secret honor fraternity, Omicron Kappa Upsilon, are Charles Augustus Anderson, Godfrey Bindewald, and Mark John Noy. The members of this fraternity are chosen according to their proficiency in studies as manifested in the three years of the dental course.

## OUR HONOR ROLL

*"On fame's eternal camping ground  
Their silent tents are spread,  
And Glory guards with solemn round  
The bivouac of the dead."*

**BOUCHER, ARTHUR, D. D. S. 1912;** killed in action in France, 1917.

**FLANNERY, JOHN, High School 1917;** died in service, 1918.

**HOLBROOK, CYRIL, Arts 1917;** died in service, Honolulu, H. I., 1917.

**KELLY, HAROLD C., Arts 1922, Lieutenant;** killed in training, San Antonio, Texas, 1918.

**MULLER, JULIUS F., Law 1917;** killed in action in France, 1918.

**NEARY, CHARLES, Arts 1918;** died in service, 1918.

**ROSENWALD, JOHN P., M. D. 1910;** died of wounds received in action in France, after having been decorated for bravery, 1918.

**TILLMAN, CORNELIUS H., High School 1914;** died in service, 1917.

Adams, Chas., D. D. S. 1915; Lieutenant, Camp Cody, Deming, N. M.  
Adams, Joseph, High School, 1913; Balloon School, Fort Omaha.  
Akers, W. O., M. D. 1902; Lieutenant, M. R. C.  
Akin, Henry L., M. D. 1901; Major, American Expeditionary Forces.  
Albrecht, Delphine G., D. D. S. 1918; Enlisted Medical Reserve.  
Alney, Victor, High School 1914; Great Lakes, Illinois.  
Amende, Carl W., Law 1917; Lieutenant.  
Anders, Charles G., D. D. S. 1915; Lieutenant, M. R. C.  
Arehart, Arthur, Arts 1915; Camp Funston, Kansas.  
Anderson, Charles A., D. D. S.; Enlisted Naval Reserve.  
Anderson, John V., Law 1919; Base Hospital Unit No. 41, Fort Crook.  
Anderson, M. H., D. D. S. 1912; Captain, Camp Logan, Houston, Texas.  
Anthony, J. T., M. D. 1914; Lieutenant; Kansas City, Missouri.  
Armstrong, Frederick C., Medicine 1920; Enlisted Medical Reserve.  
Armstrong, LeRoy, Ph. G. 1916; U. S. Base Hospital No. 101, France.  
Babington, Melville C., D. D. S. 1917; Lieutenant, Dental Reserve, Camp Lewis, American Lake, Washington.  
Baker, Walter, Ph. G. 1910.

Baldwin, Grove, M. D. 1917; Junior Lieutenant, Navy.  
Barnard, Samuel, LL. B. 1915; 1st Squadron Balloon School, Fort Omaha, Nebraska.  
Barr, Elmer L., Medicine 1921; Enlisted Medical Reserve.  
Barrett, David Dean, Arts 1916; Navy.  
Barrett, Edwin, Law 1916; Washington, D. C.  
Barrett, Frank A., A. B. 1913; LL. B. 1916; Balloon School, Fort Omaha.  
Barstow, Louis C., Dentistry, 1919; Enlisted Medical Reserve.  
Barstow, Richard, Law 1915; American Expeditionary Forces.  
Bartey, Percy B., M. D. 1911; Lieutenant, Kansas City, Missouri.  
Beaton, Paul, Arts; Captain, 4th Balloon Squadron.  
Becker, Walter W., Dentistry 1919; Enlisted Medical Reserve.  
Beitenman, Milton E., Arts 1918; Camp Dodge, Iowa.  
Belford, Daniel, Arts 1917; Great Lakes Station, Illinois.  
Bellinger, Sidney, M. D. 1917; Lieutenant, Medical Reserve Corps, Fort Riley, Kansas.  
Bellinger, E. E., M. D. 1900; Captain, M. R. C.  
Belman, Charles, High School; Sergeant, Camp Funston, Kansas.  
(Continued on Page 2)

## MILITARY NOTES

Mr. Donald J. Robinson, LL. B. '18, recently entered the navy and is now in the Detention Camp at San Francisco, California.

Mr. Emmet L. Murphy, LL. B. 1918, left recently for the Great Lakes Training Station, in company with Mr. Denis F. Naughton, Law 1919, and Mr. Jesse D. Cranny, Law 1919.

Messrs. Wm. N. Jungclaus, Law 1918, Walter M. Campbell, Law 1916, and J. J. Connolly, Law 1919, who have been stationed at Des Moines with Base Hospital Unit No. 49, recently left for Hoboken, New Jersey.

Charles F. Shook, M. D. 1915, who has been serving as lieutenant with the 313th Sanitary Train, has received a captaincy, and is taking a special course in surgery at a Chicago hospital.

Lieutenant "Jap" Tamisiea, M. D. 1916, who has been attached to the British forces at the front since Easter, was recently slightly wounded during a bombardment of a house in Arras in which he was attending the wounded. However, he was able to continue at his duty. He is attached to the Black Watch, the famous British regiment of which Captain John Lauder, son of the famous Scotch comedian, was a member. Dr. Tamisiea has been on duty in the front line trenches inspecting the men every day for two weeks, and then doing medical and surgical work in cities behind the line for a week before returning to the trenches.

Dr. Shirley Quincy Elmore, M. D. 1907, who has been in the Army a year, first as lieutenant, then as captain, was made a major in the Medical Reserve Corps on June 30th. He is stationed at the Presidio of Monterey, California.

Word has been received of the safe arrival over seas of Lieutenant John H. Caldwell, LL. B. 1915, and of Corporal Ralph W. Burke, Law 1918.

Lieutenant Gerald L. Duffy, formerly of the Arts College, now of the 133rd Infantry, and Lieutenant William D. McHugh, a former law student, now of the 134th Infantry, who have been stationed at Camp Cody, Deming, New Mexico, have been ordered to Camp Perry, Ohio, for special training in pistol and rifle work.

Rev. James P. McMahon, a former student in the Arts College, has gone to Camp Taylor, Kentucky, to take up his duties as chaplain in the army. Father McMahon has three brothers in Government service, the youngest of whom recently received a six-months' service stripe in France.

James T. English, A. B. 1916, Law 1920, left recently for the Great Lakes Naval Training Station. A few days before his departure he was married to Miss Gertrude Dross of the South Side.

Lieutenant Clyde P. Travis, Law 1915, Judge Advocate at Fort Sheridan, Illinois, was married on June 28th at Wheaton, Illinois to Miss Gertrude Fehrs, Lieutenant and Mrs. Travis have taken an apartment at Highland Park and will be there until he goes to France.

A recent copy of the Paris edition of the Chicago Tribune publishes a story of the six McShane boys whose engagement in Government service was the occasion for a letter of appreciation written by President Wilson to the boys' parents. The Paris edition of the Tribune consists of a single  
(Continued on Page 4)

## THE CREIGHTON COURIER

Published on the 1st of each month and on the 15th of June, July and August by The Creighton University, 210 South 18th Street, Omaha, Neb., for gratuitous distribution, each issue amounting to more than 19,000 copies.

Entered as second-class matter January 13, 1915, at the postoffice at Omaha, Nebraska, under the act of August 24, 1912.

### WILL YOU HELP?

This is a personal message to you, dear reader; not a selfish communication undertaking to unload responsibility or work upon some one else, but an appeal for financial assistance, not a plain, out and out statement of a condition in which you are vitally interested if you esteem our country's welfare.

You know how generously the colleges and universities of the land have responded to the call for help in the big struggle which now claims the attention of a world in arms, and you must have been thrilled by the fine showing of our young men whose only question has been how they might best serve—no holding back, no temporizing, no nice calculation of chances, no demand for special recognition, but a whole-hearted, inspiring devotion of their all to the cause of liberty and justice, whatever the cost.

These fine fellows deserve our support and they shall have it; they deserve to know that we are proud of them and that we are backing them to the limit, not only with our sympathy, but with our money, our time, our energy and our determination to furnish them with everything that can make for the success of their valiant efforts. We will not be satisfied with a mere hurrah or a soon forgotten send-off; our support must be constant, steady and well thought out.

We have studied this war long enough to realize that it can not be won by a mere burst of fervor; organization, co-ordination, long-sustained effort will alone suffice. Our plans look for the end neither this year nor the year after nor at any definite date—all we know is that we must fight and fight on with all our strength, with courage never waning, with hope never faltering. All our resources of men and material are pledged to victory.

Before this historic struggle the college and university were on trial at the bar of a public opinion which all too often scoffed at what it called the theories of the schools. Students and faculty alike were looked upon with distrust, if not mere toleration, as if they were idlers in a world of work, dawdlers in a realm of serious things. But when need arose for organized resistance to an ambition which would bestride the world, the Army turned for help to the schools and thanks to the hearty response of faculties and students alike, men trained for the pursuits of peace were quickly utilized for war after an intensive training in the technique of arms; no one doubts that this training would have fallen far short of its marvelous achievement were it not for the foundation upon which it could build because of the education so tediously and thoroughly given by the schools.

From the intensely practical standpoint of military efficiency, it is therefore vital that the schools be recruited to the highest possible point that the reservoir of material for leadership be kept well filled. Moreover, the period of readjustment which will inevitably follow the close of the war will call for trained men and women who should even now be about their preparation. We are justly proud of the predominant position taken by our country in this mighty struggle, but if she is to maintain her place, her sons and daughters must lend that support which is impossible without sound education.

And now for our special message to you, fond reader. Creighton University has done and will gladly continue

to do her full share toward the success of America's arms; more than eight hundred of her sons have already enrolled under Columbia's banner, determined, if need be, to give their all. Naturally, her classes have been depleted but in this she glories for it proves the valor of her sons and the soundness of her teaching.

But she is anxious to continue her mission and therefore claims your support. She is eager to serve with a constantly increasing helpfulness and therefore hopes to see her halls crowded with young men and women who appreciate the value of her training, not only for the stern tasks of war, but for the delicate and far-reaching work which must come after. In this hope she claims company with you and relies upon you to carry her message of welcome to those properly qualified persons of your acquaintance whose patriotic impulses beat in unison with those which bind you and her together.

In the nature of things she cannot visit and talk with the thousands of young men and women numbered among the acquaintances of the COURIER readers but if she may rely upon you and your associates to spread broadcast her invitation, to serve, as it were, in the capacity of recruiting officers, her lecture halls and laboratories and clinics and libraries will be filled in September by an earnest throng of workers for whom she may set out her choicest stores of learning.

Booklets giving detailed information about her various colleges may be had for the asking, and as a substantial evidence of your desire to co-operate in her work, we ask that you send to the COURIER the names and addresses of such of your acquaintances as may be interested in what the university has to offer. Your courtesy will be suitably acknowledged, and you will have the right to feel that you have thus helped our government to "carry on" toward that triumph in which we are all so vitally interested.

### O'DONNELL WRITES

William R. O'Donnell, A. B. 1915, who was studying at the Jesuit novitiate, Florissant, Missouri, until he was drafted, has written a letter from "Somewhere in England," in part as follows:

"We had quite a pleasant, but uneventful and unexciting trip across the ocean. During the entire trip I never became seasick though the waves were sometimes over the ship's lower deck.

When tranquil, the ocean is as smooth as Carter Lake, but when the wind blows the waves increase to a large size. We saw them twenty and thirty feet high and yet it was not a hard storm we were passing through. Sometimes the ocean seems blue, sometimes green, and again black—depending on the amount of sunlight. A very beautiful sight was had when two waves met. It seemed as if one rushed over the top of the other forming a thick white foam on top of the wave and causing the water to look blue-green in color. We saw much sea-weed, many porpoises leaping after one another out of the water, and a few small whales spouting small streams of water into the air, but the most interesting sight of all, to me at least, was two rainbows, a primary and a secondary, both quite bright, which seemed to have their extremities in the water just beside the ship. One felt that it was almost possible to grasp the rainbow as if it were a tangible thing.

Wooden houses here are almost curiosities—they are so few. Brick, stone or stucco houses are the common kinds, most of them with slate roofs, though quite a number of the roofs are thatched. Every yard, no matter how small, seems to be bounded by a hedge and contains beautiful flower and vegetable gardens. The scenery

everywhere is grand; noble oaks, tall, stately poplars; white barked birches and numerous other kinds of trees abound everywhere. Foliage is all dense and dark green in color. Flowers, wild and tame, of innumerable gorgeous hues cover the roadside and uncultivated places. It is a beautiful sight to see the small fields separated by stone fences or narrow, paved roads. Some fields are brilliant yellow with mustard blossoms, others a bright scarlet with red poppies, and others a vivid green. In the towns one sees blocks and blocks of houses very close together and all built exactly alike.

When I first saw a train, I thought we were at Lake Manawa, ready to ride on the "midget train." The "carriages"—not "coaches"—are divided into compartments holding eight persons each. There is a door on each side of the compartment leading to the exterior of the car. So it is impossible to go from one compartment to another except when the train stops. The carriages, freight cars and engines are all exceedingly small. The largest freight cars we saw were ten-ton cars, about one-third the length of an American freight car. The wheels are not solid metal, but are quite high. If six cattle were in a stock car, I believe the shipper could be accused of cruelty to animals. Speed is one quality the trains have, and we traveled at a great rate most of the time. When one sees the green pastures, the numerous beautiful fields of red, yellow and green, the quaint homes, the tree-clad hills and valleys, the sheep and cattle along the many small streams whose waters are sparkling clear and on whose surface are many water-lilies, one need not wonder that England has produced such poets as Keats, Shelley, Wordsworth and Tennyson. Both the ocean and the scenery in England inspire one with poetic thoughts, the one by its power, immensity and changeableness, and the other by its infinite variety of color, by its quaintness and the ever changing succession of picturesque scenes.

Before I forget it, I must tell of an amusing sight. Some logs were to be transported. Though they were not large logs, their length extended over three flat cars. And again, all cars are fastened together by a hook and chain only.

Once at school I wrote a piece of English which I then called a "poem," which contained the words, "The grey gulls now soar, far from harbor and shore, out over the mighty deep. And their cries evermore can be heard 'bove the roar of the waves that shoreward now leap." What a rude awakening when I found the gulls have the tops of their wings and the body grey and the under portions white and also when I never heard one of the many. I saw give forth even the slightest sound.

The weather here is quite cool. Rain on the ocean was almost a daily occurrence.

I am feeling fine and as fat as ever. So far my travels on land and sea have all been very pleasant and interesting. My present tour, I started on quite unexpectedly and expect to continue indefinitely. Just what places I shall include in my itinerary I do not yet know. I think I shall remain for some time, as Uncle Sam is paying my expenses and I will return when he thinks I should."

### ITEMS OF INTEREST

M. D. Hussie, formerly of the Arts College, has been elected president of the National Retail Hardware Association at the convention which just closed at Cedar Point, Ohio. The Association has twenty-seven affiliated state organizations and a total membership of sixteen thousand. Last year Mr. Hussie was first vice president, the previous year second vice president, and some years ago he was president of the Nebraska Association. His brother, John Hussie, also a form-

er Arts student, was president of the National Sheet Metal Contractors Association four years ago.

Mr. John C. Barrett, Law 1913, a member of the City Planning Commission, Omaha, has been appointed by the city commission, Attorney for the Board of Public Welfare.

Mr. Samuel C. Cohan, LL. B. 1915, has been appointed clerk of the police court.

Mr. Charles W. Peasinger, A. B. 1912, Law 1915, has announced his candidacy for one of the Omaha Municipal Judgeships. He is circulating petitions to have his name appear on the August primary ballots.

Mr. W. C. Fraser, LL. B. 1908, and a member of the law faculty, delivered a Fourth of July oration in Lincoln.

Mr. and Mrs. Edward F. Riley have announced the engagement of their daughter, Edna Marie, to Dr. D. M. Nigro, who graduated with the Class of 1918, and who is now in Government service in Kansas City. Miss Riley is a graduate of Eden Hall, Philadelphia, and of Chevy Chase, Washington, D. C.

Miss Martha Farmer and Mr. Jay M. Cook, Medicine 1921, were married on June 25th at Epiphany Cathedral, Sioux City. They will make their home in Omaha until the groom finishes his course in medicine.

Lieutenant James F. Kelly, M. D. 1914, and Mrs. Kelly announce the birth of a little daughter on July 7th. Lieutenant Kelly is spending a short furlough in Omaha. He is doing special X-ray work at the Rockefeller Institute in New York City.

### OUR HONOR ROLL

(Continued from Page 1)

Bengston, Harry E., D. D. S. 1915; Lieutenant, Camp Lewis, American Lake, Washington.  
Benjamin, H. B., M. D. 1909; Lieutenant; American Expeditionary Forces Bergman, Elmer, O., Arts; San Antonio, Texas.  
Bering, Walter B., Dentistry 1919; Enlisted Medical Reserve.  
Beveridge, Leo R., Arts 1918; Aviation Section, San Antonio, Texas.  
Beveridge, John V., Ph. B. 1913; LL. B. 1916; Lieutenant, Camp Lewis, American Lake, Washington.  
Bierbower, Harry C., M. D. 1910; Lieutenant, M. R. C.  
Bindewald, Godfrey, D. D. S. 1918; Enlisted Medical Reserve.  
Birmingham, Hugh, Arts; Lieutenant, 4th Squadron, Transportation Balloon School, Fort Omaha.  
Bisenius, Raphael, High School 1919; American Expeditionary Forces.  
Black, Victor, High School, 1913.  
Bloedhorn, Wm. A., M. D. 1909; Lieutenant-Commander, U. S. S. Kentucky.  
Boehler, G. M., D. D. S. 1908; Lieutenant, Nebraska Base Hospital, No. 49, Fort Des Moines, Iowa.  
Boland, Paul J., Dentistry 1919; Enlisted Medical Reserve.  
Boler, T. D.; Lieutenant, Medical Faculty.  
Bongardt, Charles F., Arts 1918; Lieutenant, American Expeditionary Forces.  
Bongardt, Henry F., Medicine 1918; Enlisted Medical Reserve.  
Boucher, A., D. D. S. 1912; killed in France.  
Bourke, Norman, Arts 1917.  
Bouza, F. E., M. D. 1911; Captain, 308th Ammunition Train, Camp Sherman, Chillicothe, Ohio.  
Boyne, Henry, D. D. S. 1913; Lieutenant, American Expeditionary Forces.  
Breetzke, O. F., Ph. G. 1915; U. S. N. A. Brehm, John J., High School; Marines.  
Brennan, John P., Arts 1914; Goat Island, California.  
Brennan, Wm. E., D. D. S. 1918; Enlisted Medical Reserve.  
Brennan, Wm. J., Dentistry 1920; Enlisted Medical Reserve.  
Brennan, Wm. J., Arts; Navy.

NEW UNIVERSITY GYMNASIUM

GROUP OF CREIGHTON MEDICAL MEN NOW IN ACTIVE SERVICE—Upper row: Major James William Thornton, M. D. 1899; Lieutenant Frank J. Hombach, M. D. 1915; Major Henry L. Akin, M. D. 1901; Lieutenant Guy Philbrick, M. D. 1917. Bottom row: Major A. J. Brown, Medical Faculty; Lieutenant John H. Regan, M. D. 1916; Lieutenant Raymond McNamara, M. D. 1915.

#### DENTISTRY AS A PROFESSION

Never has interest in the science of dentistry been so keen as at the present time. Careful research and experimentation are daily adding to our knowledge of disease and its treatment, and are developing the fact that many constitutional diseases have their origin in the mouth. Dr. V. C. Vaughan, President of the American Medical Association, says:—"The importance of hygiene of the oral cavity is just being properly appreciated. Most infections enter the body through the mouth." Dr. Charles Mayo, the eminent surgeon, recently stated that "The next great step in preventive medicine must be taken by the dental profession." Similar views have been expressed by many leading members of the medical profession, and the public is being educated to realize the necessity of properly caring for the teeth to prevent the entrance of disease into the system. Everywhere there is a cry for clean and healthy mouths, and this is creating a constantly increasing demand for dental service.

A resident dentist has become as much of a necessity in small centers of population as a resident physician. The supply, however, does not equal the demand, as the aggregate number of graduates from the dental colleges barely suffices to fill the places in the ranks of the profession made vacant by death and other causes.

Professional standards are being raised from year to year. Scientific knowledge and technical skill are receiving the recognition they deserve, and dentistry is taking its rightful place as a specialty of the healing art. As a result of higher requirements the degree, Doctor of Dental Surgery, has acquired a new meaning.

Unlike the graduate of some other professional schools, the young dentist need not wait long for a practice. If he is competent and exercises judgment in selecting a location, he will,

from the start, be able to support himself, and if he works diligently and conscientiously, will soon have a comfortable income. He will not be compelled to seek patients—they will come to him.

The policy of the College is to measure its success by the knowledge and efficiency of its graduates rather than their numbers. High standards are

maintained both in the qualifications required of applicants and in the results achieved by them after entrance. To be retained in the College, students must acquire familiarity with the principles of dental science and its related branches, and they cannot hope to be graduated until their workmanship shows professional skill and finish.

The keynote of the College is the personal touch. Each student receives individual attention, and since the number of students is limited, this is all the more feasible. Thus the diffident and backward are helped over difficulties, and the more proficient are encouraged to develop their talent and ability to the utmost. This sympathetic attitude between professors and students makes college life pleasant, and as each student feels assured not only of justice but of kindness and forbearance, he is encouraged to bring out the best in his character.

It is the aim of the College to inculcate in the minds of its students the true professional spirit. While it recognizes the fact that there is a business side to dentistry, the rendering of the greatest possible service to humanity rather than the mere acquisition of wealth, is emphasized as the chief aim of the real professional man.

Moreover, as the science of dentistry is now in its most progressive stage, the Faculty deems it their duty to keep apprised of its newest developments, discoveries and methods, and to adopt whatever is approved, so that on graduation a student may be equipped with the latest and best there is in both theory and practice.

#### MILITARY NOTES

(Continued from Page 1)

sheet of two pages, and this makes the more notable the giving of nearly half a column of space to the account about the McShane brothers. The boys are all former students of the Arts College.

John M. Sullivan, one of the early students of the Arts College, has recently been assigned to service at Camp Lewis, Washington. Prior to his departure he was tendered a complimentary dinner at the Newhouse Hotel, Salt Lake City, by thirty of his friends. A feature of the dinner was an original poem, "To Sully," by J. W. Neville and C. Byron Whitney. Each guest was given a copy of the poem.

EDWARD CREIGHTON INSTITUTE—Home of the Colleges of Law and Dentistry.
