November 4, 1959

Dear Johnnie:

Thank you for your note -- and hearty, if belated, felicitations on your birthday anniversary.

Because of your interest, I shall of course give every consideration to the invitation that I understand will be sent me to deliver the Alpha Sigma Nu lecture to be held during Lent. I don't want, however, to hold out undue hope that I can be with you, since my calendar for the first few months of the new year seems, even at this writing, excessively heavy.

With warm regard,

As ever,

Ike
