

East

Dear Denny,

You are a sign of all that is worthwhile in the world, my friend.

I thank you for your friendship + your remembrances. I am not really

wired to have been the innovator I have been for so many years.

It has taken its toll, Denny.

I don't try to envelope the injustices found in the world or the ones that have touched me.

Christ was a man who brought love, peace, life + justice - yet he was truly caught in conflict

this peace maker brother of ours.

Presently, I am going through a

personal crisis - my wife decided that she had to leave the marriage - that

we were killing each other with

kindness. She is, I was most probably right. Anyway, I find society kind of

isolates you when divorced. So I gently

live with the loneliness. Marie, my

former wife, is getting remarried today.

Perhaps this is why I am writing -

I do appreciate your

love + friendship. I have a little

spiritual symbol I made a while back -

which hangs over my desk. at the

Bottom, here's written one name —  
John Markoe. We had a chat once  
that I'll never forget. It was when  
Claude + Stever et al were trying  
to do me in. John shared some  
of himself to me on a bus bench  
in front of C.U. adminstrator bldg.  
You know each of us  
need to remind ourselves of the  
upside downer of Christ's life + message.  
Frances + Aislinn was one of the best  
known to go the "opposite" way.  
Anyway - I thank you again  
for your remembrance + wish for you the  
gifts of the Holy Spirit in Christ who dwell  
within you + your family. Jim
