

November 7, 1948

Dear Committee-Member,

I am sorry for the delay in getting this material to you, but, as usual, it's the old excuse, TIME.

I sincerely hope that you will have find time to study the enclosed samples and come to -or- meeting filled with constructive criticisms and ideas.

I would also like to ask you to jot down on a piece of paper a list of possible places where this letter might be sent. If you bring this Monday night, we can decide where to send our letters and begin this task next week, for I believe we can arrive at some decision as to what the letter should say.

Please bring all the material that you have collected during the past week. It is imperative that we start preparing our talks as soon as possible.

Continue to pray for the success of our venture.

The Lay Apostolate is new and young; many are the difficulties that lie in its path. It is important that we build a solid foundation in our work. For one can build on sand, and the wind and the floods will come and tear the edifice down. Or one can build on a rock and then the building will endure all weathers, all trials, all tribulations.

And the best rock to build on is Love, for where love is God is. Because of this love, let us build an inner structure-organization which will guide us in our all-important work.

I will attempt to contact you on Monday regarding a possible 7:00 meeting of the committee in order that we might have something tangible to present to the regular membership.

Yours in Christ.

Margaret

P.S. Please excuse errors
