My Own Dear Girl.

I really felt lonely to day as I was going to the office I was just in time to see the Children, and the Boys & Girls go to school. I felt as though I should be going too. But I guess my school days are all over. Had a good day at the office to day, Edna was down to see me again to day she said she thought her man might come soon. I feel rather tired this evening and I believe I will go to bed early. I have one more
