Vitamin D Research Participants Needed

The Osteoporosis Research Center at Creighton University is looking for participants for a 4-week research project on Vitamin D and its response to UV-B light from a UV-B light box. Males and females, ages 20-50, are needed. The study will require 13 visits (5-15 minutes each), and weekly blood draws. A stipend is available. For more information, contact Laura Armas at x4241. Please leave a message and it will be returned within 24 hours.

Memory Class Needs Participants

The Occupational Therapy Department is piloting a memory class, "Mind Your Memory: Train Your Brain." Ten people are needed to participate in the program and provide feedback about the program. The class is for people who may be experiencing normal memory changes. The class will cover: what are normal memory changes and what are not; how stress and lifestyle choices impact memory; and strategies for improving your memory skills, as well as much more. The class starts Monday, Aug. 2, and meets for four consecutive Mondays from 5:30-7:30 p.m. in the CUMC Atrium. If you are interested in participating in all four sessions, please contact Amy Matthews at 449-4246. Please leave a voice mail message with your name and contact information.
