

(2)

before you and I see each other again. That very thought just makes me weary. although I realize it is probly best dear - only dear I do get so lonesome for you. There is possessed in every individual a sort of Static Electricity or magnetism which some times attracts or repels the individual I think that probably you attain that attractive sort of Electricity any how it is some thing that makes me want you all the time - as the psychologist would have it - the mind can be controlled from one person over another -

So Omaha Feb.

Feb 18 1918 -

My Deon Dear Lil! -

I sure did study last night dear. I tried to study to night but some how I just can't do it I feel kind of tired and sleepy probably it is spring fever I have - Sweet heart just think it probably will be a long time

(3)

I read an article in my Book where
a dentist felt just as his wife did
no matter how many miles she was
away from him - It acted in this
way if his wife was happy he was
and when she was sad he also was -
so you see that probably you have
some sort of magnetism or attraction
over me - Could it be that I feel
as you do some times or you feel
as I do - any how it is some phenomena.
Well sweetheart I hope you for.

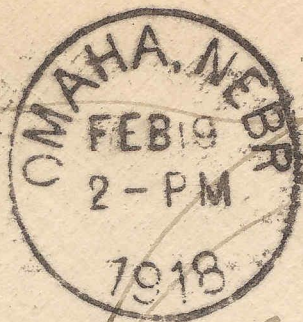

do not get the scarlet fever and
have to be quarantined I suppose if
I don't hear from you within a day
or so I will think such a thing has
happened - Well if it does dear I
shall write a letter to you every day
even if I only say Hello & Good Bye
It will be a letter any way dear
Well dear write me soon
if nothing has happened.

Waiting in Vain

Yours with

Heaps of Love -

Edna
