Dear General,

For the past month you have often been on my mind while answering notes of sympathy from other friends. Often my hand jiggles when I try to write.

And I have been trying to copy old pictures of dear John, hoping to have a few to send with a letter. But I am quite out of practice and some of my equipment is crude like cardboard extension tubes. I have a $2\frac{1}{4} \times 2\frac{1}{4}$ Reflex-Koville and two other lenses to play with.

I think it was very nice of someone to give John the military funeral with rifles, taps & flag. I could hardly keep the tears back during taps.

And did you notice some of his fellow Jesuits call him "Cap"?

If I get any good pictures I will remember you

Sincerely
Jim
